07/21/2014		General Motors	Manufacturer Safety recall issued <ul style="list-style-type: none"> - NHTSA #14V394 - Recall #N140172 - UNINTENDED IGNITION KEY ROTATION - Status: Remedy Available <p>Locate an authorized General Motors dealer to obtain more information about this recall.</p> <ul style="list-style-type: none"> - Learn more about this recall
<p>Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2003-2014 MY Cadillac CTS and 2004-2006 MY Cadillac SRX vehicles. If the key ring is carrying added weight and the vehicle goes off road or experiences some other jarring event, or if the driver unintentionally bumps the key ring or items attached to the key ring with their knee, the key may unintentionally move away from the "run" position. If this occurs, engine power, power steering and power braking may be affected, increasing the risk of a crash.</p> <p>The timing of the key movement out of the "run" position, relative to the activation of the sensing algorithm of the crash event, may result in the airbags not deploying, increasing the potential for occupant injury in certain kinds of crashes. Customers should remove all items from their key rings, including the key fob, leaving only the ignition key. In addition it is very important that drivers adjust their seat and steering column to allow clearance between their knee and the ignition key.</p> <p>Remedy: Dealers are to install two key rings and an insert in the key slot or a cover over the key head on all ignition keys, free of charge. Until the recall has been</p>			
03/12/2015		General Motors	Manufacturer Safety recall issued <ul style="list-style-type: none"> - NHTSA #14V542 - Recall #N140405 - VEHICLE HESITATION OR STALL - Status: Remedy Available <p>Locate an authorized General Motors dealer to obtain more information about this recall.</p> <ul style="list-style-type: none"> - Learn more about this recall
<p>Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2004-2007 model year (MY) Cadillac CTS-V and 2006-2007 MY Cadillac STS-V vehicles. In the subject vehicles, the fuel pump module electrical terminal may overheat and cause localized melting of the flange material near the overheated electrical terminal. The melted flange material could create a hole, or leak path, in the fuel pump allowing fuel to escape from the fuel pump module.</p> <p>This condition may result in fuel leaking from the fuel pump to the ground, diagnostic leak codes set by evaporated fuel emissions, or intermittent engine performance that could include stalling, increasing the risk of a crash.</p> <p>Remedy: Dealers will replace fuel module and fuel tank jumper harness, free of charge.</p>

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 10/5/22 at 1:44:00 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
